

# PREMIUM QUALITY CBD OIL

**CANNABAS**  
Premium  Products  
CBD THAT WORKS FOR EVERY BODY

# PURE QUALITY, MADE WITH LOVE!

**Our mission** is to reconnect people with cannabis in a positive way. This special plant offers so much to so many. From medicine to food, from fibre to oil: the possibilities are endless. We make high quality **CBD oil** available to everyone. In this way, we aim to promote good health and well-being for both **humans** and **animals**.

## **Specifically cultivated hemp for healing applications**

Cannabas produces high-quality CBD products with [unique profiles](#). All of our hemp is grown specifically for the healing applications of this special plant without the use of pesticides, herbicides, fertilisers, harmful chemicals, or genetically modified organisms.

This results in a unique profile of active ingredients. The raw base oil is extracted from the hemp using a supercritical CO2 method. This ensures that all useful material is extracted. A pure product without any nasties.

We guarantee superior premium quality, supported by tests in renowned Dutch laboratories. Our laboratory reports can be viewed online at [www.cannabas.com](http://www.cannabas.com)

## **Recommended by our customers**

100% of our customers in the past year recommend Cannabas products with a score of **9,7**

### **Incredible!**

I've tried several oils..... Then I ordered this one, and it turns out to be the very best CBD oil for my health. I'm very satisfied with it

- Hillie, Leeuwarden

### **Total peace**

I'm still figuring out the right dosage for me, but I experience more peace after my burn-out. I'm very glad that I started using CBD oil.

- Donald, Rozendaal

### **Great support**

The Cannabas.com employee gave me all the extra help I needed. All my questions were expertly answered. Great service and very customer-friendly.

- Esther, Deventer

**A DAILY DOSE OF CBD MAKES PEOPLE MORE FOCUSED AND BALANCED WITH A BETTER SENSE OF WELL-BEING.**

# **With CBD to homeostasis: our body in balance**

Cannabidiol (CBD) is the non-psychoactive, natural substance in the Cannabis plant. Unlike the well-known cannabinoid THC, CBD does not get you high or stoned, but still offers the immense therapeutic properties from the Cannabis plant. CBD-rich applications support homeostasis, the natural state of balance within your body. It ensures a natural balance in our bodies despite disturbances from outside.

## **The body's natural endocannabinoid system**

The balance in our bodies is maintained by our own endocannabinoid system. It regulates our own self-healing capacity, hormone balance, appetite, etc.. The body's own cannabinoids work together with cannabinoid receptors (CB1 and CB2 receptors) found throughout the human body. It works in our brain, in all our organs, the vascular system, the neurological system, and in our skin. Cannabinoids produced by our bodies activate that system to ensure an optimal balance.

## **Natural phytocannabinoids**

We can also absorb cannabinoids from cannabis. These plant phytocannabinoids then supplement our body's own endocannabinoids. The hypothesis is that many people may be deficient in endocannabinoids. For them, the only way to achieve homeostasis is to supplement the deficiency with phytocannabinoids. The phytocannabinoids from Cannabis are of the highest quality and resonate optimally with our bodies.

# UNIQUE CANNABINOID PROFILE

Cannabas CBD oil has a coppery, honey-like colour with a mild, earthy taste and a delicious smell. In addition to the extracted cannabinoids, our oil naturally contains an extensive range of active terpenes.

Our products have a high-quality cannabinoid profile. We don't need to add extra terpenes and cannabinoids at the production stage. This makes our oil a premium quality product that no other European supplier can match.

Cannabas broad-spectrum oil contains several other important cannabinoids, including CBDv, THCV and CBG. Our THC level is lower than the legal maximum of 0.05%. Our products are therefore completely legal, and they will not make you high or stoned.

A crucial factor is that we don't need to add crystals to achieve the high percentage of CBD. Our oil is characterised by its purity and high CBD values, supported by other cannabinoids. Within this special combination of cannabinoids and terpenes, two special and especially rare cannabinoids can be found: Cannabidivarin (CBDv) and Tetrahydrocannabivarin (THCv).

CBDv enables better interaction and communication between CBD and neural receptors, enhancing their effect. THCv also enhances the profile of our oil and is perhaps the most unique cannabinoid, thanks to its high effectiveness.

# CANNABAS

Premium  Products

## 10% CBD oil 10ml bottle

€44,- (30ml bottle €126,-)

Contains 1000 mg CBD, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 4 mg CBD).

## 5% CBD oil 10ml bottle

€24,- (30ml bottle €69,-)

Contains 500 mg CBD, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 2 mg CBD).

## 2.5% CBD oil 10ml bottle

€14,- (30ml bottle €40,-)

Contains 250 mg CBD, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 1 mg CBD).

# CANNABAS

Exclusive  Products

## 20% CBD oil 10ml bottle

€84,- (30ml bottle €249,-)

Contains 2000 mg CBD, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 8 mg CBD).

## 30% CBD oil 10ml bottle

€124,- (30ml bottle €359,-)

Contains 3000 mg CBD, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 12 mg CBD).

## 40% CBD oil 10ml bottle

€164,- (10ml bottle only)

Contains 4000 mg CBD, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 16 mg CBD).

# CANNABAS

Exclusive

Cannabinoids

## CBC oil

10ml bottle

€69,-

Contains 500 mg CBC, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 2 mg CBC).

CBC stands for cannabichromene. It is considered one of the six main cannabinoids. It is derived from the same cannabinoid as CBD and THC.

## CBG oil

10ml bottle

€39,-

Contains 500 mg CBG, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 4 mg CBG).

CBG, or cannabigerol, is the foundation of all cannabinoids. The substance CBG is considered the “Rolls Royce” of cannabinoids and is certainly not inferior to CBD.

## CBN oil

10ml bottle

€69,-

Contains 500 mg CBN, with hemp extract, organic hemp seed oil, and love. Each bottle contains +/- 250 drops (1 drop ~ 2 mg CBN).

CBN, commonly known as cannabinol, is an oxidation of THC. However, it does not make you high or stoned. Through the ageing process from THC to CBN, the active applications remain, but without the psychoactive effect.

### Entourage effect

The entourage effect ensures that all endocannabinoids, the body's own “cannabis substances”, and the phytocannabinoids work closely together. You'll find that if you want to experience an overall better effect from CBD oil, it can be perfectly complemented or combined with CBC, CBG, and CBN.

We're happy to offer you a personal consultation without any obligation. This can be requested free of charge at [cannabas.com](https://cannabas.com). We'll advise you on which cannabinoid combination best suits your needs.

# THE USAGE OF CBD OIL

It's not necessary to shake the bottle. The bottle has a leak-proof design and is therefore very user-friendly. It's important that you resonate with the oil. Hold the bottle in your hand and transfer your intention into the oil for an extra positive boost. Never heat the bottle to warm up the oil, as it may lose active ingredients.

Start off low & slow with extra care. Start with 1 drop 3 times a day. Take the drops 30 minutes before or after your meals, e.g. breakfast, lunch, and dinner. After 3 days, you may increase the dosage by 1 drop. Increase the number of drops by 1 drop every 3 days to a maximum of 6-7 drops 3 times a day. This is the maximum dosage we recommend. Never exceed 20 drops in 24 hours unless advised otherwise. The taste can feel a bit earthy at first, but that's the natural aspect of our product. Leave the oil under your tongue for 1-2 minutes, so that it can be absorbed by your mucous membranes. This is very important.

Pay close attention to the dosage, how you feel, and what the product ultimately does for you. We recommend keeping a notebook or journal. In this way, you can determine exactly when the oil starts to work, and which dosage suits you best. Please be accurate and take the time to work with these unique products. Give yourself the chance to let our CBD oil do its work for a period of at least 10-12 weeks. The first 8 weeks are important for your body to resonate with the oils. After that, you may fine tune your dosage with our help. We're happy to assist you in any way. For more advice about the dosage and our CBD products, please send an email to [service@cannabas.com](mailto:service@cannabas.com).

Please note: Animals have a much higher concentration of endocannabinoid receptors in their brains. Overdosing can affect their heart rate, breathing capacity, and muscle coordination. Always follow the "start low & slow" guideline.

## CBD Capsules

Cannabas CBD capsules contain a rich mixture of CBD, CBDv, vitamins, and minerals. Each dose fully supports your body. Our capsules are gastric acid resistant. The active substances are absorbed exactly where you want them: in the digestive system.

**CBD capsules**  
**60 capsules**

€59,-

Contains 1200 mg CBD, 150 mg CBDv, with hemp extract, organic hemp seed oil, and love. Each capsule contains  $\pm$  20 mg CBD and 2.5 mg CBDv is rich in other cannabinoids and terpenes.

In addition, the capsules contain Vitamin B12, Vitamin C, Vitamin D, Magnesium, Zinc, and Omega 3-6-9.

## CBD Ointment

CBD ointment is applied directly to the skin and is made exclusively from natural products. These ingredients improve the absorption of the ointment into the skin. The unique blend of shea butter, coconut fat, lanolin, jojoba oil, beeswax, Vitamin E and, of course, CBD, ensures optimal resonance with the skin.

**CBD ointment**  
**25ml**

€22,-

Contains 200mg CBD

**CBD ointment**  
**Exclusive, 25ml**

€59,-

Contains 1000mg CBD

## CBD massage oil

Especially developed for the professional masseur, but of course also ideal for use at home. CBD provides deep relaxation in skin tissue and muscles. The combination of organic cold-pressed hemp seed oil and organic sunflower oil offers a perfect blend for an effective massage. Our purely natural massage oil without additives ensures a soothing aftercare effect. The oil penetrates smoothly, and the skin feels nurtured.

**CBD massage oil**  
**400ml**

€29,-

# ALL OF OUR PRODUCTS ARE MADE WITH LOVE

## WWW.CANNABAS.COM

Cannabas considers 3 factors that determine the ultimate success of our CBD products.

### FACTOR 1

We supply only the best quality products and use only hemp specially cultivated for its healing properties.

### FACTOR 2

We help the end consumer to find the right product with the right dosage, in combination with our supplementary instructions for use.

### FACTOR 3

The consumer is committed to working with CBD for a period of at least 10-12 weeks. This way, the consumer really gives the product a fair chance.

Our experience has shown us that when we use and combine these three factors, the success rate increases considerably. CBD products sometimes just need a little more time to really resonate with the user. What matters to us is that people establish a positive connection with cannabis.

Our specialists are happy to support you and answer your questions.

# FULL-SERVICE COMPANY

Cannabas has many years of experience in the cannabis industry. We strive for long-term relationships with our clients where we're happy to share our passion and love of cannabis. We offer a premium quality service with specific criteria to ensure our brand ethics.

Cannabas is a full-service company serving our customers. We offer a wealth of information to support you and to ensure that you're guided to make the right choice when it comes to premium and exclusive CBD oil and CBD-related products. At Cannabas, you can be certain that you will be well informed and up to date on everything related to cannabinoids and what their added value can be for you.

Cannabas is housed at a 465 m2 location in the light city of Eindhoven, including our own production lab, distribution, marketing, sales, and training facilities. With over 10 years of experience in the cannabis industry and a client base of tens of thousands of consumers throughout Europe, we know exactly what we can do for our clients. We're happy to offer you a free personal consultation.

We're here to support and help you in any way we can, so that you're well informed and, above all, feel comfortable when using Cannabas Premium Products. We respect that you take your health seriously.

Pinar en Bas Stokman, founders of Cannabas.

# PREMIUM QUALITY & AFFORDABLE

Our philosophy is to make high-quality CBD products available to everyone. We're very proud of our unique profile of active ingredients and the fact that we offer them at the lowest prices on the market. We're aware that a low selling price means more people can use our oil.

We want people to be able to buy the highest quality products so that everyone can give this CBD oil or related products a try. In addition, we believe in providing the right information and fully guiding customers in finding their ideal dosage.

What makes our CBD oil unique is that in addition to the high CBD percentages, it also contains 27% of other cannabinoids and an effective range of natural terpenes and flavonoids. This is very important to enhancing the synergistic effect between the cannabinoid receptors and phytocannabinoids. This is also called the "entourage effect".
